AMENDMENT

Sir:

This is in response to two Office actions dated August 5, 2005. Both of the Office actions refer to serial number 10/781,241, but one is clearly mistakenly applied to this application because it makes no sense in the context of the application. For example, it lists claims 1-18, when in fact the application has claims 1-18 and 20-24, with claims 25-26 being withdrawn. Further, it rejects the claims under double patenting with respect to Patent 6,734,662 which makes no sense for this above-identified application.

Accordingly, the following responds to the merits of only the relevant Office action.  
Reconsideration of the application is requested. Please amend the application as follows.
